Well that's a first for my time as Chairman, no captures or tags for the entire month from any club!!

I guess the weather has not helped as there have been some good captures on non-zone days.

I did not hear from a few clubs this month as well so don't forget even if you don't have anything to report to still let me know. Then I can tick your club off and make sure I haven't missed anything.

There are a few new recorders so please ensure that the results you send through are only from the designated zone days as per the calendar.

Hopefully we see some action for September's results.

On a side note there has been some spectacular snapper fishing this early spring with lots of good fish being caught after the periods of rough weather.

Stay safe and tight lines
Steve
