| | |
|---------------------|--------------|
| Shellharbour | 19pts |
| Merimbula | 10pts |
| Canberra | 6pts |

Still very quiet for most parts in September, hopefully things will start to hot up as the water trickles down from the North.

There have been some very interesting captures over recent weeks with boats finding Yellowfin mixed with Dolphin fish and even the odd Shortbill Spearfish!!

Amanda's Blue Shark on 8kg line this month is a pending NSW and Australian record for 'Junior Female'. Well done on a great fish as the juniors continue to show the way in the zone. There have been some other great captures in recent weeks that will get a mention in next month's report.

I am off to the GFAA AGM and presentation in Freemantle next weekend and will report back with any information that needs to be passed on.

Stay safe and tight lines
Steve
