Eden	10
Bermagui	9

PROGRESSIVE TAG & RELEASE POINTS 2010-2011

Merimbula	5
Eden	5
Canberra	4
Jervis Bay	1

I was very happy to welcome 44 adults and children to our presentation lunch 1st July. It all went off really well and it was great that so many of the recipients were present to collect their trophies. This is always a good occasion to catch up with friends and some of us there until after 4pm.

Your clubs have all been sent details of the marine park reserves. Please look at these and do make comment. Recent correspondence from IGFA shows their concern and it is important that our views are heard by those making these decisions.

Attached to this report is the calendar for the Zone. Please let me know of any errors and omissions and I will rectify.

Those of you who know Mex (David Williams, Merimbula) may know that he has had another stint in ICU in Canberra Hospital. I have visited him a few times now and although hooked up to a multitude of tubes etc he was in amazing spirits. I know that you would all send him your best wishes and have certainly passed that on to him.

I can probably identify more easily with Mex and his family now. My husband, Geoff has just been diagnosed with aggressive mesothelioma which he contracted 40-50 years ago when working with asbestos. We are just taking it day by day and he will start chemo very soon.

Well another season is upon us and I hope that it is a good one for all concerned. Whether you manage to get fish or not it is good that you have a try and support your clubs. The competition between our clubs is very healthy and also the support given to each others tournaments. I think our clubs form a great Zone and I am very proud to be in this position.

Have fun with your fishing and stay safe.

Sanchia
