### PROGRESSIVE TAG & RELEASE POINTS 2013-14

Shellharbour	16
Batemans Bay	14
Eden	7
Canberra	7
Shoalhaven	5
Merimbula	1

What an incredibly dismal month! Apparently there were numerous Albacore taken off Eden but nothing on Zone weekends. I am assuming the same goes for the other clubs in the Zone. Never mind. I know that there are some good fish up in the club's point scores which bodes well for us.

Interesting data from IFGA re the Great Marlin Race. A Marlin tagged at Lizard Island last year and recently recaptured had travelled 2,577nm which is the second longest trip on record

Your clubs will have received a letter re the installation of a VHF Marine Radio Repeater at Point Perpendicular. The purpose is to improve radio communications generally, reducing a number of black spots and most importantly increasing the safety of everyone at sea. Letters of support are being sought and they are also investigating funding. Please address your letters to Bruce Mitchell, Illawarra Regional Controller, Marine Rescue NSW, 102 Lakelands Drive Dapto, NSW 2530. Your support would be much appreciated.

Stay safe and enjoy your fishing.....and hopefully get something!  
Sanchia
