Well the August winds seem to have played their part last month with no recorded captures or tags on zone days. Let's hope September sees some more action.

Jervis Bay are pushing ahead with their Covid safe White Sands Tournament in October and I urge as many people as possible to get involved. I think we all need to see a bit of fun and normality after what has been a shocking 12 months for the region.

As restrictions ease further we are starting to see club meetings and small functions possible but please remember to check and adhere to the current regulations and be mindful of any photos being posted on social media.

There have been a few Spring Yellowfin starting to pop up and the warm water won't be far behind them. Just a reminder to be aware of the ever increasing whale numbers at the moment as they migrate back to their Southern home and navigate with caution.

I have attached the zone calendar which is now finalised, thanks to all those that got back to me.

Stay safe and tight lines Steve
